SOCIAL FURNITURE

SUM W WARDROBE LOCKERS

Wardrobe lockers allow to furnish social rooms in a functional and aesthetic way. Wide range of products guarantees fulfilling even the most varied users' needs. A modern design perforation system allows free air circulation. Welded construction based on closed profiles affects the rigidity of the lockers.

SUM W WARDROBE LOCKERS ARE MADE IN TWO WIDTHS:
 - 300 mm,
 - 400 mm (with internal partition wall to separate clean and dirty clothes).

- STANDARD EQUIPMENT:**
- a bar with hooks,
 - a hook for towel,
 - a mirror,
 - a self adhesive nameplate,
 - a shelf above the bar,
 - an internal partition (in 400 mm wide modules).

SOCIAL FURNITURE

SUM W WARDROBE LOCKERS

Thanks to additional equipment our social lockers meet customer's requirements and expectations in 100%.

Slanted tops help maintain cleanness, socles and benches provide the functionality and ergonomics.

Seats of the benches consist of three wooden slats coated with clear varnish or three plastic slats.

All benches increase the height of the cabinet by 390 mm.

ADDITIONAL EQUIPMENT

slanted top

socle screwed to the lockers (140 mm high)

leg frame (140 mm high)

base without seat equipped with adjustable feet

base with seat equipped with adjustable feet – economical version

extendable bench equipped with adjustable feet

base without seat equipped with adjustable feet – economical version

TYPES OF LOCKS

In social wardrobes it is possible to have a keylock (C) or a handle which is adapted to hang a padlock (D) on it.

It is possible to order lockers with MASTER key which allows opening certain number of locks.

Locks available at an extra cost:

- cylindrical moisture-resistant lock,
- coin locks (E) – return coin lock (F) or non-return coin locks (G),
- mechanical (H) and electronic code locks (I) and others – on customer's request.

BENCHES FOR WSU WARDROBE LOCKERS

Cabinets can be placed on benches, and then fixed with screws.

The seat consists of three wooden slats coated with clear varnish or plastic slats, especially recommended for use in wet environments.

We offer 2 price versions:

- standard (frames and legs are made of closed profiles),
- economic (frame is made of bent steel sheet, legs of closed profiles).

In our offer, we have very practical, extendable benches which help to save space. These benches are ideal where it is essential to organize a space effectively. The bench has an extendable seat, which fits under the wardrobe.

SCHOOL LOCKERS

School lockers are made of top quality steel. The bottom of the locker is made of galvanized steel to additionally protect it from corrosion. We use powder coatings from leading global manufacturers. Wide range of standard colours – 16 RAL colours.

As a standard we offer 1- or 3-points locking cylinder locks (in selected products). It is also possible to order other locks, according to individual needs. Most of our school lockers can be produced with legs or be placed on benches. Our lockers have declarations and certificates of compliance with Polish and European norms, as well as hygienic certificate issued by PZH (National Institute of Public Health).

1450 mm high school locker is designed for younger pupils. In doors of the lockers there are ventilation holes allowing for free exchange of air.

Lockers with compartments are made in different price versions – depending on thickness and type of steel sheet of which they are made (including galvanized or acid-proof steel).

We also offer lockers with compartments with additional equipment as follows:

- a bar with hooks,
- a book shelf for notebooks, handheld things, etc.

ADVANTAGES OF SCHOOL LOCKERS

standard wide range of equipment

16 colours at no extra cost

various types of locks to choose

socles, bases, legs, slanted tops etc.

different price versions

SOCIAL FURNITURE

SCHOOL LOCKERS

SUM S LOCKERS FOR PRE-SCHOOLERS

In our offer we also have 1350 mm high Sum S lockers for kindergarteners. Even the youngest children will be able to hang their clothes and reach the shelves without any effort.

Cloakrooms in kindergarten equipped with wardrobe lockers enhance kids' independence. Children who have their own individual lockers more willingly and actively prepare to their classes.

The standard locker is equipped with 1-point cylinder lock.

Other options of the lock:

- 3-point lock,
- a handle with magnetic closure.

SUM S LOCKERS FOR 6-YEAR-OLDS

Sum S locker is 1500 mm high, so younger children have more space compared to Sus lockers with compartments, and they can hang their clothes and reach shelves easily. Locker is equipped with a bar with hooks, a hook on doors and shelves for books, notebooks and handheld things.

SOCIAL FURNITURE

LAPTOP/TABLET TROLLEYS

Trolley for laptops with function of battery charging is used to storage and easy transport of laptops. It is ideal for schools, colleges, libraries, conference halls, or anywhere where there is a need for secure storage and simultaneous laptops charging. WNL trolley is particularly useful in a classroom, where students need to charge laptops and store them safely. Thanks to the WNL trolley one can easily and safely move laptops from one class to another.

WNL trolley is used to store, secure and charge simultaneously from 10 to 30 laptops.

For the overload protection the sequencer is used, which enables to turn on the particular power strips after the specified time (~3 minutes) which results in a low maintenance of electrical load of the trolley during the charging process. A light-emitting diode is signalling the work of power strips of the laptop trolley.

Doors of the trolley are protected against unauthorized access by a key lock with locking in two points.

WNL Laptop Trolley was awarded the European Medal.

Number of compartments	10	16	20	26	30

The trolley's top is covered with melamine. The frame has holes, for air circulation. Maximum laptop size: 90 x 340 x 470 mm (17 inch).

The trolley frame is made of polyster-epoxy painted metal.

Trolley has a Certificate of Compliance with European Directive 2001/95 concerning product safety.

Work safety

A sequencer and 2 fuses to protect against overloaded lines. Trolley has a Certificate of Compliance with European Directive 2001/95 concerning product safety.

Mobility

Easy to move thanks to 100 mm diameter swivel wheels covered with non-marking rubber (2 of them with brakes).

Ergonomics

Handles mounted on both sides and a top make the trolley easy to use.

Security

Doors of the trolley are secured with a key lock blocking it in 2 points. Trolley's side edges are secured with rubber corners.

SCHOOL FURNITURE E-CLASS

TABLET TROLLEYS

Tablet trolley with function of battery charging is used to store and transport 32 tablets + 1 laptop. It is ideal for schools, colleges, libraries, conference rooms – anywhere where there is a need for secure storage and simultaneous tablets charging.

The trolley is equipped with:

- socket to charge the laptop,
- two cables: with IEC C5 and IEC C7 output,
- inserts made out of incombustible foam allowing to store 32 tablets (maximal size 12x205x295 mm, ~12,2"),
- numbered compartments,
- a shelf (100x340x520 mm) with a socket for laptop,
- handles on both sides,
- four 100 mm diameter swivel wheels (made out of non-marking rubber) of 150 kg load capacity per wheel, two of them with breaks,
- bottom sides covered with melamine,
- doors with 2-point lock,
- melamine top (18 mm thick, with cut corners, with black scaleboards),
- ventilation holes for air circulation in the body,
- three-metre-long supply cable,
- handle on the side for reel of supply cable.

WNT Trolley's advantages:

- possibility of simultaneous charge of up to 32 devices (tablet, smartphone and additionally one laptop),
- each USB port equipped with LED diode confirming correctness of work,
- double circuit-breaker protection and protection against overload,
- protection against overheating,
- implementation of single loading time limiter (up to 5 hours) to safe the batteries of currently charging devices and to decrease energy consumption..

SOCIAL FURNITURE

SOCIAL FURNITURE WITH MDF DOORS

Lockers with MDF doors are perfect combination of excellent technical parameters of a metal cabinet with aesthetics and ecology of a MDF board.

MDF is an ideal substitute of wood with no structural imperfections such as knots or cracks which are typical for wood. Unified both composition and density makes it an ideal material. The use of colourful or wood-based fronts with MDF gives the wardrobe locker the effect of lightness, comfort and a unique appearance

The doors of high quality laminated MDF board.

Galvanized hinge strips were used.

SOCIAL FURNITURE

KBS LOCKERS FOR CLEANING PURPOSES

For easy, safe and pleasant work...

KBS locker is a very practical type of metal furniture both for the distribution of safety products and to store dirty clothes.

Each compartment is closed with an independent key, and common frame allows to open all the lockers at the same time.

The person distributing safety materials has an access to all the compartments, and thanks to this he or she can control the stock and regularly restock them.

The main advantage of KBS lockers is a significant reduction of industrial safety products, and thus reducing costs. Modules of the locker for dirty clothes allow throwing dirty clothes through the opening slot easily.

MPO METAL RECYCLING BIN

Containers designed for internal use for various wastes: plastic, paper, glass. The body made of 0,8-1,0 mm thick steel, covered with structure powder coating. Slanted top prevents wastes from piling on the top of the container.

Self-closing lids prevent odours from emitting and close the containers in an aesthetic way.

Containers allow gathering wastes in 120-litre disposal bags or in internal galvanized metal containers of following dimensions: 700x295x357 mm (option at an extra cost).

Access to containers is simple thanks to frontal winged doors locking with a free-turning latch lock with a possibility of padlock locking.

Extendable frame for disposal bags placed on full-extension ball bearing slides facilitates the access to disposal bags that are placed on a frame by pressing it down with upper part of the frame mounted on hinges.

LOCKERS WITH HEATING AND VENTILATION FOR CLOTHES' DRYING

LOCKERS WITH HEATING AND VENTILATION

Lockers with heating and ventilation were designed to dry wet clothes, shoes and gloves in closed rooms. This is a perfect solution wherever the environmental conditions cause dampness. These may be: construction sites, uniformed services, waterworks, railways, airports, mines, walk-in freezers, skiing resorts and many other.

The lockers are made out of powder coated steel sheet. They are equipped with connection terminals that enable connecting of ventilation duct.

There are several combinations of available lockers for clothes drying:

- locker with ventilation and socket enabling connection of 3 lockers in string,
- locker with heating and ventilation,
- locker with internal partitions in compartments, with heating and ventilation,
- locker with heating, ventilation, time switch and socket enabling connection of 3 lockers in string.

Safety:

- CE symbol,
- IP 21 resistance class,
- thermal protection against overheating.

CABINET FOR CLOTHES AND SHOES' DRYING

Cabinet for drying clothes and shoes for 10 working sets of clothing. It is equipped with a bar to hang damp clothes and bottom compartment with 20 pipes for damp shoes. Long pipes enable hanging high working boots. Cabinet with adjustable feet and handles on the sides to move the cabinet easily. Plastic transparent curtain protects from excessive heat loss and enables an easy access to the dried clothes. Cabinet made out of fire galvanized steel sheet.

WORKSHOP FURNITURE

SZW WORKSHOP LOCKERS FOR TOOLS

ŚNN TOOL WALLS

It is essential to have the most necessary tools within reach. This can be ensured by our tool walls. Tool walls for self assembly.

SZWN WORKSHOP TROLLEY

- The workshop trolleys are equipped with:
- tops made from hardwood plywood,
 - all drawers locked with central lock,
 - drawers on ball bearing slides (maximum load capacity of 50 kg per drawer),
 - doors locked with a cylindrical lock,
 - two swivel wheels.

SZWG CABINET

Workshop locker on swivel wheels (2 with brakes). The top part made of perforated steel sheet (back and side walls), the bottom part with a shelf and 2 drawers. Set of hooks - according to the client's needs (at an extra cost).

SZW WORKSHOP CABINET WITH DRAWERS

Szw lockers provide stable construction, central lock, anti lift system (preventing from opening more than one drawer at a time).

Maximum load capacity per drawer: 75 kg.

On customer's request the top can be covered with: rubber, plywood in metal frame or acid-proof steel sheet.

Drawer partitions are also available, allowing for dividing the drawer into 5 rows. Every row is equipped with 2 galvanized partitions.
